PAPERLESS PAYROLL

Payday, without the paper.

Switching your team off paper checks means faster pay, less busywork, and fewer things that can go wrong — for you and for every employee.

WHY GO PAPERLESS

Paid on time, every time

Funds land in employees' accounts on payday — no waiting on the mail and no checks left undelivered.

Less work for your team

No printing, stuffing, signing, or distributing — and no chasing down uncashed checks at the end of the month.

Built-in security

Eliminate lost, stolen, and forged checks — along with the fraud exposure that comes with paper in the mail.

Works for everyone, everywhere

Remote and traveling staff get paid exactly the same as everyone else — no delays, no reissues, no exceptions.

Records at their fingertips

Digital pay stubs are always available and easy to search — nothing to file, store, or dig out of a drawer later.

Kinder to the planet

Cut the paper, printing, and mailing that every paper payroll run leaves behind — an easy, visible win.

9in10

U.S. employees are already paid by direct deposit

#1

Checks are the payment method most targeted by fraud

$2

Estimated cost to cut & process each paper check — vs. cents for direct deposit
